Meet the Candidates, Week 9: How did you vote on proposition E? What are the best and worst elements of this proposition?

Public safety is one of my top priorities but I had serious concerns that elements of Prop E would not make us safer.

In particular, I worry that weakening the car chase policy could lead to more accidents, and more fatal accidents. 41 percent of cases initiated between 2018 and 2021 resulted in collisions and a number of those caused injuries to innocent bystanders. The SFPD has also stated that we did not need to change our car chase policy.

While I'm open to measures to reduce paperwork, all in all, the possibility of serious accidents and injuries in the name of changing a policy SFPD said was working moved me to **vote No on E**.
