Moe Jamil

Meet the candidates, week 13: “How can District 3 help the city hit its housing goals?”

Each district has a responsibility to contribute to meeting the City’s housing goals while incorporating community input. As District 3 Supervisor, I’ll prioritize protection and preservation of existing housing for tenants and homeowners while ensuring the City stays on track with production by:

1. Partnering with the SF Building Trades to prioritize financial incentives to unstick projects committed to skilled & trained and prevailing wage requirements

2. Utilize financing and tax incentives to bring more housing to downtown and Central SOMA

3. Develop an aggressive affordable housing land banking program

4. Invest in the acquisition and rehabilitation of existing multi-unit buildings into affordable housing
