

## **Moe Jamil**

Meet the candidates, week 14: **“Identify one missed opportunity in the past four years when current Supervisor Aaron Peskin could have taken action to benefit District 3.”**

Rather than nitpicking the past, I plan to move District 3 forward.

I will not look to the political winds, camps, or ideologies when making decisions. I am rooted in organic life experience, including my deep roots working on the ground in every neighborhood of District 3 with tenants, homeowners and local businesses – fighting for the City we love.

As Supervisor, I will insist that residents and local businesses are empowered to participate in land use decisions. I vehemently oppose efforts to systematically remove public input from these decisions, as we saw in 2022’s Proposition D and many laws removing local control.
