

Moe Jamil

Meet the Candidates, week 17: What's your plan to make it easier to open a small business in District 3?

Small businesses are the lifeblood for our neighborhoods and their continued success is one of my top priorities.

- We need to give prospective new businesses a single point of contact at City Hall to assist them through the process from start to finish. The Office of Economic and Workforce Development has the acumen to get this done with appropriate funding.
- Develop a program for ownership succession for legacy and neighborhood-anchoring businesses so a new generation of owners can receive training, financial assistance and support to take over our most beloved local institutions.
- Maintain and evolve our tradition of neighborhood local planning to ensure every neighborhood has a healthy mix of businesses including preserving and attracting neighborhood-serving retail.
