

Adlah Chisti

District 11 Meet the Candidate Week 13: How will you reach the Asian community in District 11?

Ensuring representation for every community within District 11 is a cornerstone of my candidacy. **Public safety and education** are priority issues.

A fully staffed public safety department and community policing are crucial for maintaining clean and safe streets, fostering business revitalization, and increasing foot traffic. District 11 also saw a reduction in blessing scams impacting Asian seniors in our community. Thanks to Ingleside Police Captain Amy Hurewitz and Nancy Tung from the San Francisco District Attorney's office who worked tirelessly to reduce Blessing scams through direct services and community engagement.

Quality public school education is vital for local economic growth and stability. **I am the only candidate who consistently attended SFUSD Board and District Advisory Council Meetings** to stay current about school closures affecting Black, Asian, Latino, and Filipino communities. If elected, I will continue to ensure our office is present at school related meetings and continue collaboration with our public safety department including Ingleside and Taraval Stations.
