

Adlah Chisti

**Meet the candidate Week 22: What do you plan to do to activate the Persia Triangle as district supervisor?**

I think it's important to establish a task force that brings together a diverse group of stakeholders, including local residents, business owners, and community members.

The task force will identify key areas of improvement, such as public safety, infrastructure upgrades, and cultural events that reflect the unique character of the Persia Triangle. By working closely with relevant business owners and stakeholders, we can gather valuable feedback and develop initiatives that foster economic growth and enhance the quality of life in the area.

Through transparency and effective communication the task force will ensure regular updates and community forums. This will ensure that everyone is informed. Together, we will create a vibrant and thriving Persia Triangle that reflects the needs and aspirations of its residents.
