

Chyanne Chen

Meet the candidate Week 22: What do you plan to do to activate the Persia Triangle as district supervisor?

As District Supervisor, my plan to activate the Persia Triangle focuses on creating a vibrant, inclusive community hub. I propose public table seating for lunchtime gatherings, spaces for elders to play chess and Mahjong, and a regular farmers market to promote local produce. We can engage young people through an outdoor cinema for community entertainment and transform the site into a youth space with outdoor programs and open mic nights. I will strengthen cultural programming within the Excelsior Community Benefit District, celebrating our diverse cultural communities. We will involve local artists in these initiatives, fostering a multicultural district that honors and uplifts our community's heritage.

I will also introduce legislation to identify and acquire community-prioritized sites, ensuring developments reflect local needs. We will pursue 100% affordable housing projects, and I support the \$20 billion regional affordable housing bond on the November ballot, which will fund site acquisitions. Prioritizing key sites like Persia Triangle will serve long-term community needs.
