Meet the Candidates, week 26: Who do you support for DA?

Supporting a DA who can collaborate with other city officials is crucial for effective governance. San Francisco's law enforcement involves multiple independent roles, including the Chief of Police (appointed by an independent commission selected by the Mayor and Board of Supervisors and independent of the DA's election). When these officials clash or hold differing ideologies, it leads to inefficiencies, public confusion, stalled reforms, reduced accountability, and resource wastage. A DA who fosters open dialogue, seeks common ground, and prioritizes the city's well-being over personal ideology can bridge these divides. Let's prioritize candidates committed to cooperation and justice for an effective criminal justice system.
