District 11 Meet the Candidate Week 19: What will you do, as district supervisor, to support multi-generational households in District 11?

District 11's multigenerational households exist throughout the district and are one of the most unique qualities of this district.

By providing dedicated support for each generation, we can adequately support these households. We must **create strong universal childcare, strong educational opportunities, and support after-school programs for our youth**. These opportunities free up hours for parents to be able to learn skills, work, and build income for the family. We must also **provide robust health and activity services for our seniors** in the community. **Creating opportunities for intergenerational collaboration** such as community events, gardens, and collaborative programming brings all generations together and acts as entry points for access to services. In addition to the aforementioned measures, we can provide comprehensive support for multigenerational homes by **emphasizing safety and housing opportunities** for everyone.
