Meet the Candidates, week 25: **What do you think about the Biking and Rolling Plan and the District 3 portion of the three proposed scenarios?**

NO ADDED BIKE LANES IN CHINATOWN.

This plan does not serve the people of color in District 3.

What needs to happen is the people of the SFMTA need to tell the police to start giving speeding tickets and enforce all traffic laws.

In the Tender Nob, the posted speed limit is 20 MPH (same in the TenderLoin). No one goes 20. The bicyclists all go over 20, the cars go over 20 ... no one uses their signals (which is especially dangerous if you are on a bike and not using hand signals)

There is not a single law enforced in the Tender Nob (and Tenderloin) community. Bike lanes don't address the fact that we need to have everyone (DRIVERS AND BICYCLISTS) to follow all traffic laws.

This Biking and Rolling Plan is another example of being busy while doing nothing.
