

Week 31: Name one specific issue affecting residents in the Excelsior. How would you address it as their supervisor?

Adlah Chisti

Our community in District 11 is often overlooked when it comes to resources, and we need to fight for our fair share. Unlike other candidates I will not use my position as a stepping stone for my career. In the Excelsior, particularly at **intersections for streets** crossing Brazil and Russia, respectively, we need better lighting, speed bumps, and traffic calming measures like bulb outs, along with stricter enforcement of stop signs to ensure safety for families and children. With over seven schools and multiple childcare centers from Geneva to Silver Ave/Cambridge Street, **safety and accessibility** are critical. **Parking** is a major issue, and I propose solutions such as angled and shared underground parking, especially in any newly proposed housing developments, to ease congestion and better serve our residents.
