

Week 31: Name one specific issue affecting residents in the Excelsior. How would you address it as their supervisor?

Chyanne Chen

As I speak to residents in the Excelsior, I hear a lot of concerns regarding **street safety**. Residents are concerned about parking issues, car break-ins, street cleanliness/illegal dumping, pedestrian safety, sideshows and fireworks. In order to create more parking in existing footprints, I would initiate a process with the MTA to map out streets that are wide enough for conversion to 90 degree and 45 degree parking. I have heard the enthusiasm for neighborhood watch programs and would like to build these connections with neighbors. The remaining issues of pedestrian safety, speed limits and dangerous activity on our streets are really a question of increased and consistent enforcement.
