

Albert Chow

What is your No. 1 issue in this election and what do you plan to do about it?
Please be specific.

My top priority as supervisor will be providing the district with real representation and leadership. The recent happenings in our district such as Prop. K, the Engardio recall, and the mismanagement of the appointment process, have left us feeling shut out and without proper representation.

I will bring an authentic representation that will focus on uniting the Sunset, restoring our voice, and ensuring that the values and needs of our residents are being met. I will focus on strengthening public safety, funding and expanding education for our next generation, supporting our small businesses, growing our district in a way that fits the community, and finding a safe and balanced solution to the Great Highway.

The Sunset district needs a real voice, real leadership, and real representation – that is what I will deliver.
