

## David Lee

What "green" initiatives are important to you for the Sunset and for San Francisco? Are there any initiatives you can commit to advocating for?

I will fund a dedicated Green Team to manage the median green space on Sunset Boulevard. If you walk there today, you can see that parts of the greenway are overgrown and poorly maintained. Once the Green Team is established, I plan to expand this service to other areas of the district, including the Great Highway corridor.

This dedicated Green Team is important for our neighborhood because it goes beyond basic maintenance. It helps us prioritize nature preservation and plant the trees we need to combat climate change. As supervisor, I will fight for a dedicated Recreation and Parks budget so this team can work alongside our neighbors to maintain, clean, and beautify our local green spaces.
