

*From Connie Chan campaign spokesperson Julie Edwards on May 31, 2026:*

"This is clearly a desperate attempt from our opponent to undermine our campaign because we have momentum to win on June 2. It is also a despicable, blatant attack on Democratic women who are running for office and winning.

"The notion that Connie Chan—whose support of the Block the Bombs Act and the end of military aid to Israel, condemnation of the Gaza genocide and advocacy for Palestinians are public record—would somehow be carrying water for AIPAC is absurd and laughable.

"Connie has also been clear from day one of this campaign that she would not accept a dime from AIPAC and she has stayed true to this throughout. PACs act independently of our campaign and we would urge any organization supporting Connie to respect the very clear values she has laid out not to accept donations from AIPAC.

"We are ready to bring the working people's agenda from San Francisco to Washington, where we will fight for Medicare for All, fully funded public education, ensuring San Francisco remains a sanctuary city for all and making billionaires pay their fair share not just in San Francisco but across the nation."
