

We have presented our [Working People's Plan](#) as a roadmap of what we need to do to expand healthcare, reform immigration, invest in education and tackle rising costs of living. But we know to successfully take on any of these issues, we need first to end the corruption of the Trump Administration and protect democracy.

As San Francisco's Budget Chair, I've successfully put \$1.3 billion on reserve and funded safety net programs to safeguard San Franciscans from Trump's cuts to healthcare and food security, and his attacks on our immigrant and LGBTQ communities.

In Congress, I will push to restore funding for health care and expand the child tax credit, expand funding for housing, public education and transit and halt funding for any war and abolish ICE.
